Amendments to the Specification:

This listing of the specification will replace all prior versions of the corresponding paragraphs of the specification in the application.

Listing of Amended Paragraphs of the Specification:

Please amend a paragraph beginning at page 11, line 17 to read as follows:

The organic-inorganic composite film of the present invention may contain fine particles. Addition of fine particles allows the film to be provided with a function. Examples of the fine particles include, but are not particularly limited to, fine particles of an organic material, fine particles of electrically conductive oxide, etc. Examples of the fine particles of an organic material include latex.
